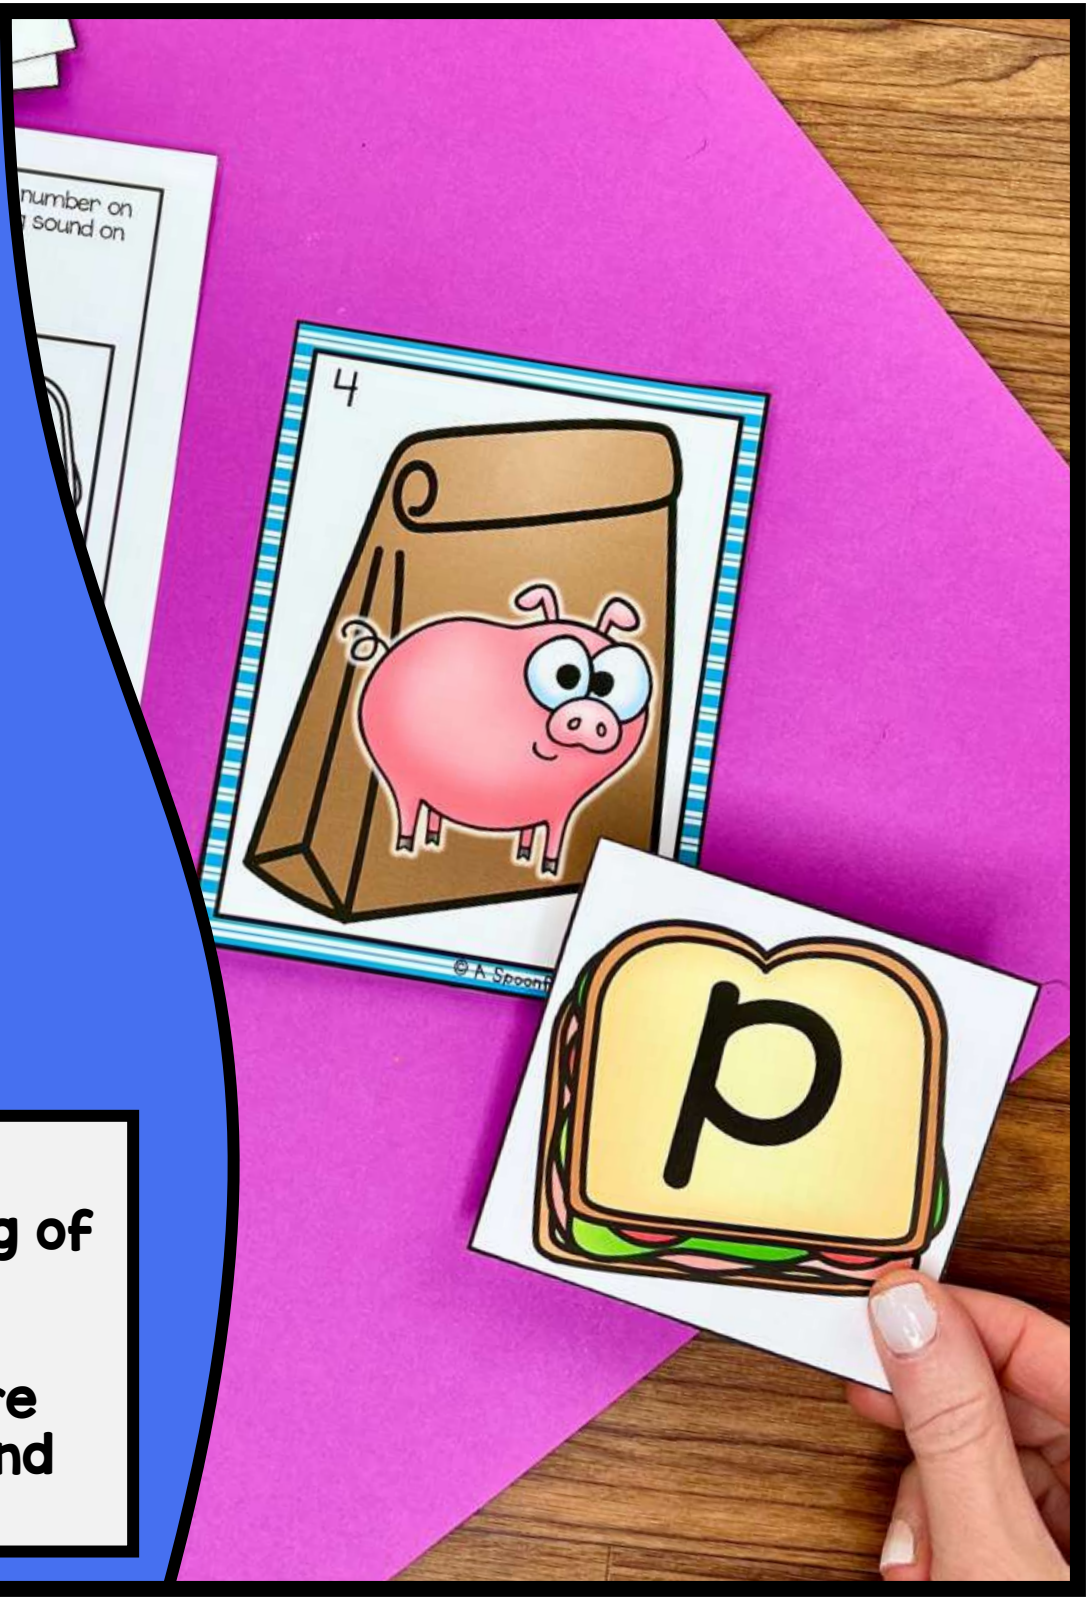
TEACHERS REVIEWS

★★★★★ "This is one of my go to resources for kindergarten. I use the activities all year. I begin using in my small groups and move to independent practice during centers/small group rotations. I love that I can level the activities to fit student needs. I have almost all the monthly math and literacy center bundles. Such a great time saver and students love the activities. I like that there is picture support for each activity and the format are similar each month/theme.

★★★★★ "This product is so great! This is great for the beginning of Kinder, end of Pre-K, and it covers many different skills. My kids love these resources! The I Can pages are also great for students to understand what they are working on!"



WHY USE BACK TO SCHOOL CENTERS?

1. Provides you with **29 low prep** activities that you can easily add to your day. The different options included will allow you to **meet your students needs** and provide you with plenty of activities to keep students excited for more.

2. These centers are designed with **hands-on, engaging,** and **fun** activities that will make your students feel like they are playing games. With so many skill included, you will **feel confident** knowing that your students are practicing important skills for this time of year.

3. The **'I Can' posters** will allow for student independence which will give you more uninterrupted time to work in small groups or interventions. The **recording sheets** will quickly allow you to see your students understanding of the activity and skill.
