TEACHERS REVIEWS

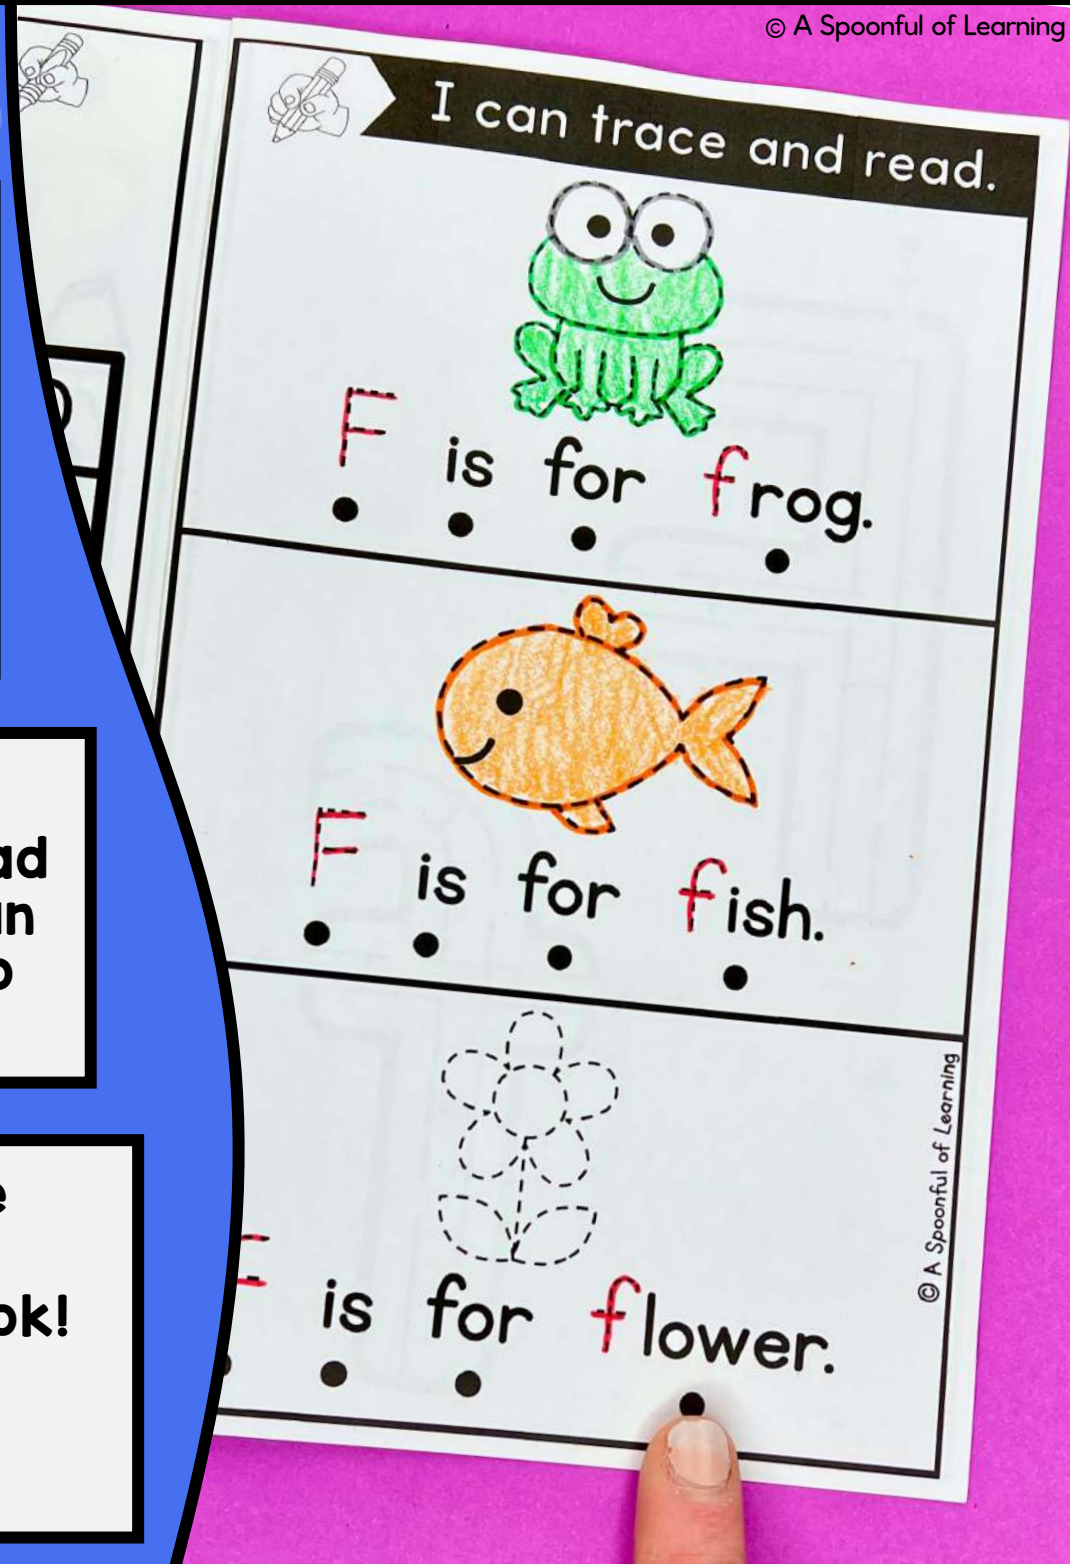

"My kindergarten students love to use this resource. I like these booklets because it is a perfect size for a young child and they have all the most important activities that a child needs to learn a letter."

"Excellent resource! My students love them. I only had to model a few and now they can complete them independently. So nice! So easy to prep, too."

"We love these little books! My students always ask when they get the next new book! They are so engaged and enjoy sharing it with their family at home!"

WHY USE ALPHABET BOOKS?

1. Provides you with **low prep** activities that will give students tons of practice to help practice and review **letter recognition, letter formation, and initial sound identification.**
2. These **interactive and engaging** letters books allow your students to dive deep into learning about each letter of the alphabet with a variety of fun activities.
3. Students will gain lots of **confidence** as they learn to identify and master their letters. Learning the alphabet is incredibly important in **building a strong foundation** as **early readers and phonics.**
